

Customer Service is our life. Seriously.

We strive to offer the highest quality service in our industry by:

- Paying attention to your budget and providing you with a high efficiency irrigation system that will sustain your landscape and lawn.
- Using the most cutting edge technology in irrigation, weed control and fertilization.
- Being sensitive to your busy schedule and making sure we utilize your time well by scheduling appointments within the working hours that are most convenient for you.
- Communicating prior to and after scheduled service to assure you are aware of issues or concerns, repairs needed and completed, options for additional upgrades and needed treatments.
- Always keeping appointments.
- Calling ahead on the day of a scheduled appointment to allow you flexibility in your day.
- Having all work/repairs approved prior to beginning.
- Offering pre pay programs at a discount to help with your budget planning.

Lawn Care

A weed free, healthy lawn will make your home and landscape visually appealing and more inviting. We can improve your curb appeal by offering our 6-Step Fertilization Program. This premium program will be applied at 4-6 week intervals and includes:

- Weed Control
- Fertilizer Treatments
- Turf Disease Diagnoses

We also offer the following applications and services:

- Grub Control
- Over Seeding
- Core Aeration
- Verticut
- Surface Insecticide
- Nutsedge Treatment
- Turf Fungicide
- Landscape Maintenance
- Tree Fertilization and Disease Control
- Mulching

Irrigation Services

When it comes to installing a new irrigation system, we are focused on building the most efficient system within your budget. Our sprinkler systems conserve water with precise targeted watering, matched precipitation and micro climate design. Each system includes a rain sensor that shuts the system off during rain. You can be assured of the highest quality professional products installed with integrity by our team of professionals. Installations include a two year complete warranty with a free first year winterization and backflow inspection.

We offer the following irrigation services:

- New Residential Sprinkler Systems
- System Activations
- Backflow Inspections
- System Tune-Ups
- Repair on Existing Systems
- Winterization
- Efficiency Upgrade

Drip Irrigation

We are now offering Drip Irrigation which has arguably become the world's most valued innovation in agriculture since the invention of the impact sprinkler in the 1930s!

Both commercial and residential applications.

Benefits include:

- Most Efficient Form of Irrigation
- Increases Plant Growth
- Increases Watering Window
- Eliminates Wind Issues
- Soil Erosion is Lessened
- No Water Damage/Stains to Buildings, Windows and Fences
- Reduces Plant Disease
- Reduces Liability
- Conforms to Any Landscape Shape
- Increases Watering Area
- Less Yearly Maintenance Cost
